AsterMIMS
We'll Treat You Well

Dear Doctor,

KASO, Kerala chapter of Indian Association of Surgical Oncologists (IASO), cordially invites you to Kozhikode for an update on soft tissue sarcoma. The city which played host to the first European visitors to the subcontinent is a melting pot of cultures and tastes and is emerging as an important centre for cancer care. We are proud to host young surgeons and aspiring oncologists to meet and interact with the masters of cancer practice in South India. We have an academically invigorating day planned for you on 20th November 2016 at Malabar Institute of Medical Sciences (Aster MIMS). Soft tissue sarcoma affects all age groups and is a prototype for the multidisciplinary approach to cancer. It is also often mismanaged because of inadequate evaluation and improper surgery, leading to loss of limb and life. Make use of this opportunity to keep yourself abreast with the latest in sarcoma management.

Sincerely,

Organizing Secretary

Deepak Damodaran

Associate Professor,
Govt. Medical College, Calicut

Organising Chairman

Dileep Damodaran

Sr. Consultant, Surgical Oncology,
Aster MIMS, Calicut

Organising Committee

Dr. Salim V P
